

The Company

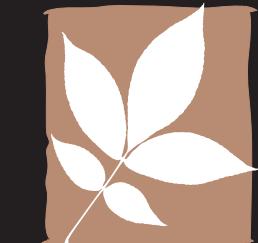

We are a group of landscape designers, landscape architects and nursery professionals dedicated to serving the landscaping needs of North Texas homeowners, since 1993. We proudly provide services to residential, commercial and home builders. Our goal is to make sure that the quality and service you receive from us meets with your expectations, and that your experience with us is a positive one.

Our award winning landscape architects are among the most qualified in the industry. Installations are well organized and completed in a timely manner. We maintain a vast inventory of the finest plant materials available, from the simple to the exotic, to bring your landscape to life.

Whether you have a small garden or a large formal estate, we have the creative capacity to transform your natural environment, or to simply add finishing touches to your current landscaping. By unlocking your garden's secret potential with a beautiful landscape project, you could yield a substantial return on your most valuable investment.

Call today for your personal, free consultation. "See what a difference a little Metroplex Garden Design can make."
